### AeroCool DCW Series

The DCW Series of chilled water air handlers are designed to operate with centrally supplied chilled water source. Units are rated for use with 42°F, 45°F and 48°F entering water temperatures in the cooling mode.

These systems can also be used as a heating system when supplied with hot water instead of the chilled water. Units are rated for use with inlet hot water temperatures from 120°F to 180°F. These units are not recommended for leaving air temperatures over 140°F.

### THHP Split Air Cooled Heat Pumps

AeroCon split heat pump systems incorporate high efficiency, scroll compressors and extended surface coils to increase the unit's operating efficiency and reliability. Systems are available from 1 to 2-1/2 tons of capacity and 2 cabinet sizes for customer flexibility.

### THDC-36/48/60 Series

Centrifugal Condensing Systems THDC36, 48 and 60() centrifugal condensing systems are used in critical cooling applications needing horizontal condenser air discharge and inlet on the same face.

### FXC Classic Cabinet Series

The IEC FXC Classic Cabinet Series features a slender design, making it ideal for perimeter heating and cooling applications in public buildings, offices, hospitals, and hotels. The FXC cabinet is fabricated of heavy gauge steel. All FXC units have a removable one-piece front panel for easy access to all internal components. Standard FXC units are provided with an attractive powder-coat paint finish.

#### Features

- 200 to 1200 CFM
- An Eco-telligent ECM motor option with an efficiency range of 65 – 85% compared to the efficiency range of 30 – 40% on a standard PSC motor
- High performance hydronic coils that average 26% percent greater capacity than the previous Vertical series coils
- Filter replacements require no tools, so changing them out is literally a snap
- Highly customizable cabinetry allows for flexible footprints making the "Classic" series a great fit for new construction or renovation
- 3 Speed Wall Switch with OFF position

#### Benefits

- Application fit — available in eight nominal sizes for applications in a variety of room layouts
- Design flexibility — standard and high-capacity hydronic coils are available to match the space heating and cooling loads
- Ease of installation — factory assembly minimizes piping and electrical work required at job site
- Quality and safety — every unit is tested, inspected, and AHRI certified
- Ease of service — all components are accessible by removing the front panel, making them one of the most maintenance friendly units available

3 Speed Wall Switch with OFF position  
FCOE332.....\$25.42 each

### 16CF Top Freezer Refrigerator

- Improved Design
- Improved design provides quiet cooling for a more pleasant kitchen.
- Freezer Temperature Control
- To keep frozen items ice cold, freezer temperature controls allow you to adjust the temperature level of cold air in the freezer.
- Optional Ice Maker-ECKMF95
- The easy-to-install optional icemaker makes sure there's plenty of ice close at hand, so you won't have to fill your ice tray again.

**WRT106TFDW**

### Dishwasher with Resource-efficient Wash System Tall Tub Design

- This model's Tall Tub design allows you to load tall and odd-shaped items in both racks. An additional 3" of interior space compared to standard tub models makes room for extra-large items in the lower rack and plates or sports bottles in the upper rack.
- Resource - Efficient Wash System
- This dishwasher's resource-efficient wash system cleans a full load of dishes using nearly 1/2 the water and energy<sup>1</sup>. Whirlpool Brand's improved motor and wash system optimizes cleaning for better cleaning results versus the previous wash system and provides our quietest line of dishwashers ever.
- Quiet Partner™ I Sound Package
- Whirlpool brand dishwashers offer many levels of quiet operation with this system of sound reducing insulation.

**WDF110PABW**

### Whirlpool® Electric Laundry Center

**WET4024EW-24 INCH**  
**WET4027EW-27 INCH**

### 1.7 cu. ft. Over the Range Microwave with Hidden Vent

- The hidden vent streamlines the appearance of the microwave exterior, making it simpler to wipe clean.
- 1.7 cu. ft. Capacity
- Heat up leftovers with ease in this 1.7 cu. ft. capacity microwave hood combination. You'll have the room you need for frequently used items like dinner plates and microwave-safe bowls.
- 1,000 Watts Cooking Power

**WMH31017AW**

### 5.1 cu. ft. 30" Freestanding Gas Range with Under-Oven Broiler

Enjoy the flexibility and efficiency you need to prepare holiday meals and everything in between with this 5.1 cu. ft. capacity freestanding gas range. Full-width under-oven broiler, Multiple Power™ burners with up to 15,000 BTUs are perfect for high heat tasks, satin-finish cast-iron grates let you slide heavy pots and pans to the optimal cooking location. The upswept, porcelain SpillGuard™ cooktop contains spills for easy cleanup. Plus, you can monitor cooking progress without opening the door and disturbing the oven temperature with the large oven window.

**WFG320M0BW**

### Whirlpool® 30" 4.8 cu. ft. Capacity Electric Range with Custom Broil

- Oven Window-Allows you to check cooking progress without opening the oven door and disturbing the temperature.
- Custom Broil-Allows you to set your preferred broiling temperature in 5-degree increments between 300°F and 525°F. High heat is best for grilling meats, while low heat is ideal for delicate tasks such as melting cheese.
- Upswept porcelain spillguard™ cooktop-Helps contain messes and makes cleanup easier with the raised-edge design.

**WFC150M0EW**
